EXPERIENCE
Tecgraf Institute/PUC-Rio

UI/UX Designer
Jan 2021 – Present

Mapping user's demands and necessities, creation of user flow, user research, creation of practicalinterface solutions, creation of new design system components, revision and update on design systemcomponents, creation of low and high-fidelity prototypes, creation of interface elements animation, creation oficonography, hand-off to developers and validate implementation status.

I was responsible for changing our design files and software from Adobe XD to Figma, which made thedesign process and communication better and easier, besides also facilitating the hand-off process andcommunication with developers.

I also brought a renewal on our user's manual, changing it's technology from WebBook (Tecgraf's toolkit for HTML manuals) to Docusaurus; which made it not only easier to use but also to maintain.

UI/UX Designer (Intern)
Jan 2019 – Dec 2020

Responsible for the creation of low and high-fidelity prototypes, user flow definition, creation of newiconography consistent to style guide, creation of new interface components and hand-off to developers.
